Efficient solutions and discharge alternatives

1. **Stretching Solution** for liquid products
   - Inks and Lubes: • Lubricating Oil • Transformer Oil • Cooling agents
   - Reactive Chemicals: • Paints • Coatings • Polyurethane glues
   - Food, Pharma and Cosmetics: • Dispersions • Condensated milk • Fruit preparations • Lotions
   - Maximum density: 2.2 kg/l
   - Residue in container after discharge: ≤0.5%

2. **Rolling Solution** for semi-solid products
   - Inks and Lubes: • Offset printing ink • Grease (NLGI 2–3)
   - Reactive Chemicals: • Silicones • Adhesives • Epoxy resins
   - Food, Pharma and Cosmetics: • Toothpaste • Bakery fillings • Processed cheese • Butter products

3. **Squeezing Solution** for high-viscous/solid products
   - Inks and Lubes: • Offset printing ink • Grease (NLGI 2–3)
   - Reactive Chemicals: • Silicones • Adhesives • Epoxy resins
   - Food, Pharma and Cosmetics: • Toothpaste • Bakery fillings • Processed cheese • Butter products
